RESPONSIBILITY AND EXPERIENCE, WHITMAN

Mr. Cipollone joined Whitman in October 2008. His responsibilities include managing all client environmental deliverables for 3rd largest wireless service provider in nation for markets in the NE region; interacting with corporate contacts to shape environmental policy; and negotiating service agreements with wireless providers.

SUMMARY OF OTHER PROFESSIONAL EXPERIENCE

Conti Communications, Inc. 2004-2008
Raritan, New Jersey

Director of Business Development

Responsible for oversight of telecom Engineering group and wireless telecommunications marketing to all wireless providers in the NE Region. Directed engineering, environmental, zoning, site acquisition and construction activities for telecommunication site upgrades and new build sites. Directed public bid activity for telecommunication projects. Developed scope and pricing for acquisition and installation contracts on a regional level with national wireless providers and equipment vendors. Negotiated Master Services Agreements and Service Contracts for carriers.

French and Parrello Associates 2002-2004
Wall, New Jersey

Engineering Project Manager

Responsible for the management of turn-key wireless projects for a full service engineering firm's telecommunications department. Duties included management of development professionals (engineers, zoning managers, and legal team) to obtain site acquisition (leasing) and zoning approval (building permit). Responsibilities also include client interface and weekly status reporting using client-tracking software. Duties also included lease negotiations with corporate landlords on multi-site wireless installations. Provided expert testimony for over fifty boards in PA, NJ, and DE, including expert zoning testimony at municipal hearings on carrier applications for site permitting. Strong relationships with all wireless providers in Philadelphia and New York BTA and MTA's.

JOHN P. CIPOLLONE

SENIOR PROJECT MANAGER

Crown Castle International
Fort Washington, Pennsylvania

1999-2002

Site Acquisition Manager

Responsible for the management of all greenfield and Build to Suit site acquisitions that include all raw land acquisitions for the largest wireless provider in PA, NJ, and DE. Duties included management of site acquisition agents, review and approval of agreement terms, and negotiations. Further duties included investment return model creation, analysis and recommendation, financial tracking of acquisition and construction on all raw land capital projects. Managed regulatory process including NEPA, Phase I, SHPO review and analysis. Managed zoning process; provided expert real estate testimony at zoning hearings. Managed construction activities on raw land and collocation sites. Strong knowledge of DEP, Pinelands, Wetlands, SHPO policy and procedure. Successfully obtained approvals on various regulatory issues necessary for construction. Successfully developed relationships with all wireless providers to aid in zoning approvals. Developed strong relationships with wireless providers to accurately predict site development that enabled internal site development to occur prior to carrier development. Attended wireless deployment meetings for various carriers and reported site progress. Developed and implemented tracking software for project coordination. Oversaw and worked in Artimis project tracking environment for site development and carrier collocation projects. Sales function included lease negotiations with wireless providers using Master Lease templates. Involved in development of Master Lease Agreements with new customers. Maintained relationship with all wireless provider contacts in NY Metro SMSA, Phila. MTA.

SpectraSite Communications Inc.
Bensalem, Pennsylvania

1999
