Certified by NJDEP to Conduct Subsurface Investigations UST No. 0011176

RESPONSIBILITY AND EXPERIENCE, WHITMAN

Mr. Lenhart joined Whitman in June 2005. As Senior Project Manager, Mr. Lenhart's responsibilities include the management and technical oversight of a wide range of site investigation, remediation and due diligence projects for industrial and commercial clients.

Mr. Lenhart's recent professional assignments include:

- Phase I and II Environmental Site Assessments for major construction projects
- Spill prevention planning and training
- Management of ISRA projects for industrial clients

SUMMARY OF OTHER PROFESSIONAL EXPERIENCE

MDL Consulting Group Inc. 1988-2005
Hightstown, New Jersey

President

Responsible for all business and technical operations for MDL Consulting Group, Inc. He served as coordinator of environmental site investigations, overseeing the management of technical projects for industrial and commercial clients. Mr. Lenhart previously managed over 50 ISRA (formerly ECRA) projects involving the evaluation of underground storage tanks, and the design and implementation of soil and groundwater cleanup operations. He has developed and implemented numerous complex surface and subsurface soil and water sampling programs. He has recently completed preparation and implementation of over 150 SPCC plans for a major telecommunications company.

Randall E. Lenhart

Senior Project Manager

Mr. Lenhart contributed to EPA guidance documents regarding the safe design of drainage systems for hazardous waste landfills. He has evaluated RCRA-mandated ground-water monitoring systems for various hazardous waste sites, and coordinated a major project to conduct preliminary assessments and site inspections at over 100 hazardous waste management facilities in Louisiana. He has performed hydrologic evaluations as part of the feasibility study for the Florence Land Recontouring Landfill, a major CERCLA site in Florence, New Jersey.

TRC Environmental Consultants, Inc.
Somerset, New Jersey

1986-1988

Technical Manager

Responsible for supervision and technical review of all projects for the Somerset, New Jersey Division.

The Earth Technology Corporation
Somerset, New Jersey

1982-1986

Project Hydrologist

Managed multiple ECRA and environmental assessment projects. Developed RCRA Part B application standards under USEPA contract.

New Jersey Department of Environmental Protection
Bureau of Flood Plain Management
Trenton, New Jersey

1981-1982

Program Development Specialist

Performed hazard evaluations and reviews; provided technical and regulatory guidance to construction officials in support of the National Flood Insurance Program.

Princeton Aqua Science
New Brunswick, New Jersey

1979-1981

Staff Hydrologist

Evaluated subsurface drainage systems at a major New Jersey petroleum refinery.
