

School's Out for Summer: Services & Improvements for your Facilities

Before the New School Year:

SERVICES CHECK-LIST

Chemical Management

Asbestos/Mold Inspection

Air/Water Quality Testing

HVAC Upgrades

1

Are you properly managing your chemicals?

Why it's Important:

Chemicals must be properly reported, stored, and managed to avoid risk of injury, pollution or contamination.

How We Can Help:

- ★ Chemical Lab Packing
- ★ Unknown Material Identification
- ★ Haz/Non-Haz Waste Disposal
- ★ Right-to-Know Reporting

2

Are there any asbestos or mold concerns?

Why it's Important:

Asbestos and mold can lead to respiratory issues in building occupants if left undetected.

How We Can Help:

- ★ Asbestos Survey, Design & Monitoring
- ★ Mold Investigation & Evaluation

3

Has your air and/or water quality been tested?

Why it's Important:

Sick Building Syndrome and lead in drinking water are two rapidly growing concerns within schools.

How We Can Help:

- ★ Indoor Air Quality Monitoring & Assessments
- ★ Water Quality Testing
- ★ Lead Testing

4

Is your HVAC system in need of an upgrade?

Why it's Important:

An updated HVAC system improves overall building health and energy efficiency, lowering energy costs.

How We Can Help:

- ★ HVAC Engineering
- ★ Backup Emergency Generators
- ★ Fire Protection/Life Safety
- ★ Lighting Upgrades
