

Industrial Hygiene Services

Overview

Whitman's Industrial Hygiene Services team are experts in providing comprehensive industrial hygiene consulting to assist clients to anticipate, identify, evaluate and control chemical, physical and biological stressors to workers and the public.

Whitman has more than 20 years of experience in the Environmental Health & Safety (EH&S) field. Our staff have developed, designed and managed numerous projects in both the public and private sectors relating to the environmental issues of asbestos, lead-based paint, mold and indoor air quality.

Whitman's extensive industrial hygiene and safety experience enables us to create custom solutions by utilizing cost effective strategies in combination with broad technical experience and expert knowledge of regulations.

Our team has provided services in the New Jersey, New York and Pennsylvania metropolitan areas for a wide variety of private business and public clients including school districts, construction firms, manufacturing companies, and public utilities.
