Unique Field Services

As many of you know, Whitman has been self-performing various types of environmental remediation projects in conjunction with our consulting services for our clients over the years.

These projects have included, but are not limited to:

- Breaking up and removing concrete and asphalt;
- Excavating hazardous and non-hazardous soil/fill/debris, and;
- Managing underground storage tanks.

But did you know that our skilled field personnel can do so much more?

Here are some examples of the unique field services Whitman can provide:

- Pre-Demolition Building Remedial Needs (Removal of Items Not Compatible for General Trash)
- Building Demolition, Specifically Related to Environmentally Impacted Structures (e.g., Lead and Asbestos)
- Site Clearing in Preparation for Redevelopment
- Equipment/Asset Recovery from Abandoned/Unmaintained Sites
- Estate Cleanouts of Commercial/Residential Properties
- Damaged Product Management from Trailers, Warehouses, Storage Units, etc.
- Hazardous & Non-Hazardous Material/Container Packing & Management (Including Lab Chemicals, Maintenance Products, Manufacturing Materials)
- Off-Road Waste Retrieval and Management (Any Size Container)

We Can Help

Whitman has been a trusted source for your environmental and engineering services since 1985. We'd also like to be your trusted source for any of your field service needs!

If you have a unique labor need or environmental concern, please contact Whitman's Senior Vice President David Case. We would be happy to discuss your needs and provide a free site visit. You'll have the comfort knowing that we will work with you every step of the way!

For more information regarding these services, please contact:

David Case, Senior Vice President
